#### **SUMMARY**

Aspiring Data Scientist and Computer Science student with a robust foundation in programming, data structures, and algorithms. Currently pursuing a Bachelor's degree at SZABIST Larkana. Passionate about leveraging data science and AI to convert complex data into actionable insights. Experienced freelance graphic designer on Fiverr with a proven track record in delivering high-quality design projects. Adept at project management, client communication, and creative problem-solving.

#### WORK EXPERIENCE

# Freelance Graphic Designer | Fiverr

February 2021 - Present

- Designed and delivered high-quality logos, social media graphics, and promotional materials for diverse clients.
- Managed all phases of the design process from ideation to final delivery, ensuring timely and professional communication.
- Rated as a top seller with a 95% positive review rate.

# Event Organizer, "Gaming Battleground" Competition | SZABIST University Larkana

February 2024

- Coordinated and managed the "Gaming Battleground" competition, overseeing event logistics, schedules, and communications.
- Led a team of volunteers and collaborated with various departments to ensure the event's success.
- Developed skills in leadership, event management, teamwork, problem-solving, and communication.

## **EDUCATION**

# Bachelor's Degree in Computer Science

January 2023 - September 2027 (Expected)

Shaheed Zulfikar Ali Bhutto Institute of Science and Technology (SZABIST)

 Pursuing a Bachelor's degree in Computer Science with a focus on programming, data structures, algorithms, and object-oriented programming. The curriculum includes advanced courses in data science, artificial intelligence, and software development, providing a strong foundation for a career in technology.

#### CERTIFICATIONS

# Python Development and Python Programming Fundamentals | Udemy Completed August 2024

• This course provided a comprehensive introduction to Python programming, covering fundamental concepts including syntax, data structures, and object-oriented programming. Emphasis was placed on practical applications and problem-solving using Python.

# Programming for Beginners: Learn to Code in Python | Udemy Co

**Completed August 2024** 

• Aimed at beginners, this course introduced the basics of programming with Python. Topics included variables, loops, functions, and debugging. The course focused on building a strong foundation in coding and understanding programming logic.

#### Authentic Leadership | Udemy

# Completed August 2024

• This course explored the principles of authentic leadership, including self-awareness, integrity, empathy, and effective communication. It provided strategies for leading teams with authenticity and fostering a positive organizational culture.

# 2024 Masterclass on Data Science using Python A-Z for ML | Udemy Completed August 2024

This advanced masterclass delved into data science and machine learning with Python. It
covered topics such as data preprocessing, model building, data visualization, and model
evaluation. The course focused on applying Python to real-world data science challenges and
creating actionable insights.

#### INTERESTS

- **Data Science s AI:** Enthusiastic about exploring the latest advancements in data science and artificial intelligence.
- **Graphic Design:** Passionate about creating visually compelling designs and exploring new design techniques.
- **Programming:** Enjoys solving complex problems through programming and continuous learning in the field.
- **Gaming:** Interested in the gaming industry, particularly in event organization and community building.
- **Technology Trends:** Keeps up with emerging technologies and trends to stay ahead in the tech industry.

#### **TECHNICAL SKILLS**

- Python Programming: Proficient in Python, Pandas, NumPy.
- Data Science & Machine Learning: Skilled in data preprocessing, model building, and visualization.
- Data Visualization: Experienced in creating impactful data visualizations.
- Algorithm Development: Capable of designing and optimizing algorithms.
- Graphic Design: Proficient in Adobe Photoshop, Illustrator.
- Databases: Knowledgeable in SQL, database design, and data querying using tools like MySQL and PostgreSQL.

## **PROFESSIONAL SKILLS**

- Project Management: Effective in planning and executing projects.
- Leadership: Demonstrated through event organization and team management.
- Communication: Clear and effective in client interactions and presentations.
- **Problem-Solving:** Strong ability to address and resolve challenges.
- Customer Satisfaction: Achieved high satisfaction rates in freelance design work.

# **ACHIEVEMENTS**

- **Python Development and Programming Fundamentals:** Mastered Python, developed and debugged coding projects.
- **Programming for Beginners:** Built a solid foundation in Python programming concepts and completed beginner projects.
- Authentic Leadership: Enhanced leadership and team management skills through practical application.
- Bachelor's Degree: Achieved high grades and led the "Gaming Battleground" competition, showcasing leadership and event management.

## **LANGUAGES**

- English (Fluent)
- **Urdu** (Proficent)

• Sindhi (Native)
