Professional Summary

Results-driven AI/ML Engineer and Full-Stack Developer with 1+ year of hands-on industry experience building and deploying intelligent, data-driven applications. Proficient in Python, NLP (BERT/Transformers), ensemble learning (Random Forest), Flask REST APIs, and PHP/Laravel. Strong Computer Science foundation in Data Structures, Algorithms, and OOP. Proven communicator and leader in high-stakes professional environments. Seeking a software engineering or machine learning role to build impactful, large-scale systems.

Technical Skills

Programming Languages: Python, PHP, JavaScript, HTML5, CSS3, SQL, C++
AI / Machine Learning: Scikit-learn, HuggingFace Transformers, BERT, Random Forest, NLP, TensorFlow, Feature Engineering, Hyperparameter Tuning, Model Evaluation, Cross-Validation
Web Development: Laravel, Flask, Jinja2, REST APIs, MVC Architecture, CRUD Applications
Databases: MySQL, SQLAlchemy, Relational Database Design, Schema Normalization
Developer Tools: Git, GitHub, Jupyter Notebook, VS Code, Linux, Postman, Agile/Scrum
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Software Engineering, Real-Time Systems

Work Experience

Haprow Karachi, Sindh, Pakistan
Artificial Intelligence & Machine Learning Intern *July 2025 – Present*
- Designed and deployed 3+ end-to-end ML pipelines using Python, Scikit-learn, and HuggingFace BERT, reducing manual data processing time by 40%.
- Optimized Random Forest classifiers through hyperparameter tuning (GridSearchCV), improving model accuracy by 15% on structured tabular datasets.
- Integrated production ML models into Flask REST APIs, delivering real-time inference endpoints with under 200ms average response latency.
- Collaborated in an Agile team of 5+ engineers, participating in bi-weekly sprints, code reviews, and daily standups to ship features on schedule.

Provincial Assembly of Sindh Karachi, Sindh, Pakistan
Conducting Officer – 7th CPA Asia Regional Conference 2026 *February 2026*
- Coordinated logistics for 50+ international parliamentarians across 3-day governance conference, ensuring zero scheduling conflicts.
- Facilitated 8+ diplomatic sessions on governance, climate resilience, and digital democracy, managing real-time agenda adjustments.
- Served as primary communication liaison between 10+ delegations, demonstrating cross-cultural professionalism under high-pressure conditions.

Fiverr (Freelance) Remote
Graphic Designer *2022 – 2024*
- Completed 20+ design projects for international clients across 5+ countries, maintaining a 5-star satisfaction rating throughout engagement.
- Managed full client lifecycle independently — from brief, iteration, and feedback to final delivery — consistently meeting tight deadlines.

Projects

BERT-Based NLP Text Classifier | *Python, HuggingFace Transformers, Flask, REST API* 2025
- Fine-tuned a pre-trained BERT model for domain-specific text classification, achieving 92%+ accuracy on the validation dataset.
- Deployed inference pipeline as a Flask REST API with sub-200ms latency, supporting real-time NLP predictions for 100+ daily requests.

Random Forest ML Classification Pipeline | *Python, Scikit-learn, Pandas, Jupyter* 2024
- Built a full ML pipeline (ingestion → preprocessing → training → evaluation) reducing model iteration time by 30% through automated feature engineering.
- Applied 5-fold cross-validation and GridSearchCV, improving generalization accuracy by 12% over baseline models.

Full-Stack Laravel Web Application | *PHP, Laravel, MySQL, HTML5, REST API* 2024
- Developed a multi-user web application with role-based authentication, CRUD operations, and a normalized 10-table MySQL schema.
- Implemented MVC architecture in Laravel, reducing codebase complexity and cutting feature development time by 25%.

Education

Shaheed Zulfikar Ali Bhutto Institute of Science and Technology (SZABIST) Larkana, Pakistan
Bachelor of Science, Computer Science – GPA: 3.1/4.0 *January 2023 – September 2027*
- Relevant Coursework: Data Structures & Algorithms, Artificial Intelligence, Database Systems, Object-Oriented Programming, Operating Systems, Software Engineering, Computer Networks.

Certifications

ChatGPT Masterclass: Navigating AI & Prompt Engineering *Udemy*
Python 3 – Beginner to Advanced: Complete Programming Course *Udemy*
Python for App Developers: Build Your First App *Udemy*
Python Development: Programming Fundamentals *Udemy*
Full-Stack Python: Django Framework & HTML5 Stack *Udemy*

Leadership & Activities

Lead Organizer – "Gaming Battleground" Competition | *SZABIST Larkana* February 2024

- Organized and led a 100+ participant gaming event, managing a 10-person volunteer team, full event logistics, and inter-departmental coordination.
- Awarded Certificate of Appreciation for outstanding leadership, teamwork, and flawless end-to-end event execution.
